THE COMPLETE PICTURE

**EdICT TECHNICAL SOLUTIONS** is a specialist electrical, multimedia and data Installation contractor. Our Team will design and implement bespoke solutions to suit your projects and budget.

## ELECTRICAL CONTRACTING

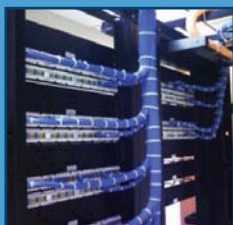

EdICT can install monitoring equipment which will continuously track usage to identify what's costing what, where, and when. This gives you the power to decide what's used, when and how it's used.

Voltage reduction and stabilisation equipment can save your company up to 20% on its annual electricity costs by installing Energy Saving Transformers. Reduction transformers provide a voltage drop of typically 3% - 10%, which is optimal for most application requirements. We can organise a detailed site survey and quotation.

Your company may be eligible for a 3 years interest free loan from the CARBON TRUST.

## NETWORKING

We can install all your data cabling from Cat5E to Cat6 and beyond, and meet all compliance requirements from desktop to patch panel.

Our job specification will include timescales and consideration of your business continuity during installation. We pride ourselves in a fast efficient and well organized professional service.

Our installations have a fully warranted Manufacture Guarantee up to 25 years.

## AUDIO VISUAL

### Interactive Whiteboards & Projector Installations

We operate a detailed survey service to capture the essential details required for our installation teams to install your new or existing hardware to manufacturers' standards.

We can install the full range of products from Promethean, Smart and other manufacturers.

### Digital Signage in Education & Corporate Applications

Digital Signage is widely used in foyers in Schools through to lecture theatres in Universities. Digital Signage has been a proven method to communicate to students, staff and guests.

Digital Signage is becoming commonplace in the corporate world to communicate to staff and customers.

LCD and Plasma screens are widely used to display digital signage, teaching and learning material or sales and marketing visuals in offices, training suites, galleries etc.

Electric Screen Installations are common in assembly areas, lecture theatres and conference centres and are widely used for laptop Presentations for Staff & Pupils to watching movies.
